Santa Ana, CA – On September 17, 2009, The Filipino-American Chamber of Commerce of Orange County (FACCOC) in partnership with our proud sponsors, Citibank, Southern California Edison, Wells Fargo Bank, Orange County Water District and CalNational Bank, will be hosting an all-day green and health expo at the Fullerton Marriott entitled “21<sup>st</sup> Century Business Opportunity Day”.

The event will bring together sponsors, exhibitors, cities and agencies of Orange County, and businesses that offer “green” or eco-conservation products , as well as model cities outside of Orange County that have implemented programs on conservation and clean technology. FACCOC will provide the forum/venue for participants to meet and educate small business owners.

**Conserve. Go Green. Be Healthy.**

We cordially invite all business owners, business professionals and students to attend. Attendees will have an opportunity to network with fellow business professionals, hear and meet industry experts, and explore how technological advances in the 21<sup>st</sup> century are making it easier, healthier, and more profitable for companies that make green choices.

Our series of workshops will feature panel discussions on preserving the ecosystem, retrofitting into a green business, natural resources and conservation products, programs on conservation and clean technology, tax incentives for starting a green business and certification of small businesses.

Along with green topics, health issues will be covered throughout the day by exhibiting healthcare providers and health-related businesses and during the luncheon keynote focusing on the impact of the Obama Healthcare Reform on small businesses.

Admission to the event is free and includes meals. This will surely be a wise investment of time for anyone looking to gain a winning edge for their business.
